Richard Dennis made a fortune on Wall Street by investing according to a few simple rules. Convinced that great trading was a skill that could be taught to anyone, he made a bet with his partner and ran a classified ad in the *Wall Street Journal* looking for novices to train. His recruits, later known as the Turtles, had anything but traditional Wall Street backgrounds; they included a professional blackjack player, a pianist, and a fantasy game designer. By the time the experiment ended, Dennis had made a hundred million dollars from his Turtles and created one killer Wall Street legend.

In *The Complete TurtleTrader*, Michael W. Covel tells their riveting story with the first ever on-the-record interviews with individual Turtles. He shows how Dennis's rules worked—and can still work today—for any investor with the desire and commitment to learn from one of the greatest investing stories of all time.

MICHAEL W. COVEL is the author of the bestselling book *Trend Following*, now in its seventh printing and translated into eight languages. Covel speaks regularly on the subject of trading and is managing editor of TurtleTrader.com, the leading news and commentary resource on insights into the Turtles. He lives in California.
